## Care and Maintenance

1. Use a furniture cover when not in use.
2. Inspect and tighten all bolts and fasteners on a regular basis to ensure the proper performance and safety of your product.
3. In order to prolong the life and beauty of your furniture, we recommend that it be stored in a dry and protected area during off season periods.
4. Be careful to never allow water to build up in the frames as this will cause corrosion and freeze damage in cold climates.
5. Wash all frames with a solution of mild soap and water. Rinse with clean water and dry with a soft absorbent cloth towel.
6. Frames can be treated with a liquid wax for maximum protection against UV rays and/or salty, damp air.
7. Never machine wash cushions, as this will result in shrinkage or damage.
8. If your set includes cushions, they may be cleaned by hand with mild soap and water, and rinsed off with clean water.
9. After cleaning, leave the cushions upright to allow water to drip and dry. (Never use a commercial or home dryer to tumble dry fabric ).
10. Do not use bleach or solvents to clean any product! This will void the warranty.
